Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant provided a brief description of the invention as well as the claims and presented arguments as to why the claimed amendments would overcome the Wells reference. More specifically, applicant states that the amended claims draw towards a second gaming machine that includes a plurality of games in the memory which is alleged to overcome Wells because wells is alleged to be a dummy terminal that does not include games in the second gaming machine. The examiner will consider the amendments in light of the arguments and discussion provided when formulating the next office action. No agreement with respect to the claims was reached. .
